CRIME AND DELINQUENCY ABSTRACTS

Crime and Delinquency Abstracts is a publication of the National Clearinghouse for Mental Health Information of the National Institute of Mental Health. It is one of several publications issued by the Clearinghouse as part of its comprehensive mental health information service. Crime and Delinquency Abstracts contains abstracts of the current published scientific and professional literature and of current ongoing research projects. These abstracts are prepared under contract by the Information Center on Crime and Delinquency of the National Council on Crime and Delinquency. Investigators who are engaged in a research project on crime and delinquency are invited to send a summary of the project to the Information Center on Crime and Delinquency, National Council on Crime and Delinquency, 44 East 23rd Street, New York 10010.

Crime and Delinquency Abstracts is available gratis only to individuals actively working in the field of crime and delinquency. For information concerning Crime and Delinquency Abstracts, changes of address, or removal of names from the mailing list, see the inside back cover page.

Copies of the complete article, book, or research project are not available from the Clearinghouse at this time. To obtain the full copy, it is necessary to use library facilities or to write to the author, publisher, or principal investigator.

Crime and Delinquency Abstracts was formerly entitled International Bibliography on Crime and Delinquency, and Volume 4 of the Abstracts continues the serial publication numbering begun with the International Bibliography. Volume 3 of the International Bibliography was the first to contain abstracts.

**CRIME AND DELINQUENCY ABSTRACTS AND CURRENT PROJECTS —
AN INTERNATIONAL BIBLIOGRAPHY**

VOL.5 NO.9

CUMULATIVE SUBJECT INDEX

U.S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
Public Health Service
Health Services and Mental Health Administration
National Institute of Mental Health

Each of the 8 issues comprising Volume V, Crime and Delinquency Abstracts contained only an author index. This issue provides an alphabetical subject index to all of the abstracts and current projects included in Volume V, Numbers 1-8. The following special points should be noted:

1. In order to assist the reader in content searching for materials in the issues of Volume 5 the index terms for this issue have been developed in greater detail than is usual. Identification of geographic locale has been a prime criteria.
2. Searching for a particular abstract should be done in conjunction with the "Key To Use of Index" which appears before the Author Index in each issue.
